

BECAUSE YOUR
PET IS WORTH IT

Beginner Classes for Deaf Dogs, 1 hr classes 6-Week Course \$75

This is a 6-week basic obedience class for dogs 4 months and older that focuses on basic commands such: watch me, sit, stand, leave it, find it, touch, come, down, stay, drop it, left & right turns, slow, take it, walking down, about turn, u-turn, halt, advanced stay & come past distractions, and place cues. Humans, and dogs will be taught hand signals for each basic training cue.

Required vaccinations: Rabies (not required for puppies under 4 months of age). Kennel Cough and Combo shot including Parvo. You must present vaccination records when signing up for class.

I recommend using a 6 foot leather or nylon. **Flexi-leads are not allowed.** The following collars are accepted: flat, martingale, choke chain, head halters/gentle leaders, and pinch collars. **However, I recommend pinch collars, martingale collar or choke chains because they work best when correcting dogs that are pulling or misbehaving and as a handler you will have better control.**

I recommend comfortable clothing but **no flip flops.** You must bring your own treats and poop bags. Also, no face to face interactions with dogs. Dogs must be kept 3 feet apart from one another for safety reasons.

Do not bring dogs to 1st class. Discussion class only. If outside, please bring a lawn chair.

During warm weather months, we meet outside of Galesburg Animal Hospital behind employee parking lot at 1525 E. Fremont Street, unless raining.

During cold weather months, we meet in a heated building behind the garage located at 1825 E. Fremont Street. This residential property is the last one before the Galesburg Christian School when traveling east from the Galesburg Animal Hospital.
