

Galesburg Animal Hospital, PC

PreAnesthetic/Sedation Testing Consent

Your pet is scheduled for a procedure that requires anesthesia/sedation. We would like to take this opportunity to recommend pre-anesthetic blood work.

There is always the possibility a physical exam alone will not identify all of your pet's health problems, so we strongly recommend that a pre-anesthetic profile (a combination of tests) be performed prior to anesthesia or sedation. These tests are similar to and equally as important as those your own physician would run if you were to undergo anesthesia.

It is important to understand that a pre-anesthetic profile does not guarantee the absence of complications that may arise during anesthesia. It may, however, greatly reduce that risk, as well as identify medical conditions that could require future treatments.

The combination of blood tests we recommend for the apparently healthy pet is listed below.

- BUN, Creatinine, ALKP, ALT, Glucose, Total Protein, Electrolytes
(kidney health, liver health, diabetes/sugar levels, hydration status)
- CBC *(anemia, infection, clotting)*

For services listed above, \$ 170.00

Please complete pre-anesthetic testing prior to administering anesthesia/sedation to my pet.

I understand that a medical condition may exist which would be impossible to identify during a physical exam alone, and could result in anesthetic complications. I understand that my pet's health could be at risk if such a condition goes undetected when my pet is placed under anesthesia/sedation.

I decline pre-anesthetic/sedation testing at this time and request you proceed with the anesthesia/sedation.

In addition, we offer postoperative pain management and/or laser therapy for every surgery. We believe these facilitate your pet's ability to have a smoother recovery. There is an additional charge for both services.

Please add post-operative pain care package (\$45-\$60)

ACCEPT **DECLINE**

Please perform a laser therapy treatment (\$18-35)

ACCEPT **DECLINE**

Microchip: (\$36) Permanent form of identification to help ID your pet in the event they become lost or stolen

ACCEPT **DECLINE**
